

ADVISORY PAMPHLET Cabin Operations Manual	Rev.: 1
	AP-006

Advisory Pamphlet No.006

1 Guidance for Operators in Compiling Procedures for Cabin Crew

1.1 Foreword

1.1.1 OPS 1.1040, IEM OPS 1.1040(b), IEM OPS 1.1045(c) specifies the general rules for Operations Manuals and requires that an operator ensures that all operations personnel have easy access to a copy of each part of the Operations Manual which is relevant to their duties. Additionally, an operator shall supply cabin crewmembers with a personal copy of extracts from Parts A and B of the Operations Manual as are relevant to their duties.

1.1.2 This document contains guidance for operators on the cabin crew procedures that need to be addressed in the Cabin Safety element of the Operations Manual.

1.2 Operations manuals to be carried (OPS 1.130 and 1.1040)

1.2.1 An operator should ensure that the current parts of the Operations Manual relevant to the duties of the crew are carried on each flight and that the parts of the Operations Manual which are required for the conduct of a flight are easily accessible to the crew on board the aeroplane.

1.2.2 The Operations Manual should comply with the requirements of OPS 1 Subpart P, as appropriate.

1.3 Operations manual amendment and revisions (OPS 1.130, 1.1040(g), and Appendix 1 to OPS 1.1045 Part A, para 0.2)

1.3.1 The Operations Manual should be amended or revised so that the instructions and information contained therein are kept up-to-date. The operator should ensure that all operations personnel are made aware of any changes which are relevant to their duties.

1.3.2 Procedures for amendments and revision should be specified in the Operations Manual.

1.4 Role of the Authority (Appendix 1 to OPS 1.1005(g)3.)

1.4.1 The Operations Manual should include information regarding the role of the Authority.

1.4.2 The Operations Manual should also specify the powers of Inspectors of the Authority, their identification documents and the types of inspections that they are empowered to conduct OPS 1.145, Appendix 1 to OPS 1.1045 Part A 2.5.

1.5 Laws, regulations, procedures and operator's responsibilities (OPS 1.020, 1.145 and Appendix 1 to OPS 1.1005(g))

1.5.1 OPS 1 requires that the Operations Manual includes information regarding compliance with the law, regulations and procedures in those states in which operations are conducted and which are pertinent to the performance of their duties.

Rev.: 1	ADVISORY PAMPHLET Cabin Operations Manual
AP-006	

1.5.2 The Operations Manual should include information which provides an awareness of aviation regulations relating to cabin crew (OPS 1.995(f)).

1.6 Competence of cabin crew (OPS 1.205 and 1.995(f))

1.6.1 An operator should ensure that all personnel assigned to, or directly involved in ground and flight operations, are properly instructed, have demonstrated their abilities in their particular duties and are aware of their responsibilities and the relationship of such duties to the operation as a whole.

1.6.2 An operator should ensure that each cabin crewmember is competent to perform his duties in accordance with procedures specified in the Operations Manual.

1.7 Cabin crew responsibilities and operating restrictions (OPS 1.085 and 1.995)

1.7.1 OPS 1 requires that the Operations Manual specifies under what circumstances a cabin crew member should not operate.

1.7.2 An operator should ensure that each cabin crewmember remains medically fit to discharge the duties specified in the Operations Manual.

1.8 Duties and responsibilities of cabin crew (Appendix 1 to OPS 1.1005(g) and Appendix 1 to OPS 1.1045 Part A, para 1.5)

1.8.1 The Operations Manual should specify the duties and responsibilities of cabin crew members.

1.9 Cabin crew number and composition (OPS 1.990, IEM OPS 1.990 and Appendix 1 to OPS 1.1045 Part A, para 4)

1.9.1 An explanation should be provided for each aeroplane type in respect of minimum and normal cabin crew numbers and composition.

1.10 Operation on more than one type or variant (OPS 1.1030, ACJ OPS 1.1030)

1.10.1 If cabin crew are to operate on more than one aeroplane type or variant, then all aeroplanes and/or variants should be specified.

1.11 Chain of command (IEM OPS 1.1000(c)2a)

1.11.1 The Operations Manual should specify the chain of command.

1.12 Responsibility and authority of the commander (OPS 1.085(c), 1.090 and Appendix 1 to OPS 1.1045 Part A, para 1.4)

1.12.1 The Operations Manual should give information regarding the responsibility and authority of the commander and delegation of responsibilities to other crewmembers.

1.13 Procedures for the use of vacant crew seats (Appendix 1 to OPS 1.1045 Part A, para 8.3.13)

1.13.1 OPS 1 requires that the Operations Manual specifies conditions and procedures for the use of vacant crew seats.

1.14 Senior cabin crew members (OPS 1.1000(a), IEM OPS 1.1000 and Appendix 1 to OPS 1.1045 Part A, para 1.5)

1.14.1 The Operations Manual should specify the duties and responsibilities of senior cabin crewmembers.

1.15 Minimum requirements for cabin crew (age and medical) (OPS 1.995, AMC OPS 1.995(a)(2))

1.15.1 The Operations Manual should specify the minimum requirements for cabin crew.

1.16 Flight and duty time limitations and rest requirements (Appendix 1 to OPS 1.1005(g)(2) and Appendix 1 to OPS 1.1045 Part A, paras 4.1(d) and 7.1)

1.16.1 Flight and duty time limitations, and rest requirements pertinent to cabin crew should be specified in the Operations Manual.

1.17 Occurrence and accident reporting (OPS 1.420(a), Appendix 1 to OPS 1.1045 Part A, para 11 (a), (b) and (c) and IEM OPS 1.1000(c)(5))

1.17.1 The Operations Manual should specify the procedures for reporting to the commander, accidents and occurrences which may have safety implications, together with any deficiencies and/or unserviceability of safety equipment and systems.

1.18 Crew health precautions (Appendix 1 to OPS 1.1045 Part A, para 6 and IEM OPS 1.1045(c) 6)

1.18.1 The Operations Manual should specify details of crew health precautions and include relevant regulations and guidance.

1.19 Safety on the ramp (Appendix 1 to OPS 1.1045 Part A, para 8.2.2(h))

1.19.1 The Operations Manual should provide information on the procedures for ensuring safety whilst the aeroplane is on the ramp.

1.20 Quality System (Appendix 1 to OPS 1.1045 Part A, para 3)

1.20.1 The Operations Manual should contain a description of the Quality System relevant to cabin crew duties.

1.21 Common language (OPS 1.025)

1.21.1 The Operations Manual should specify the requirement for all crewmembers to be able to communicate in a common language.

Rev.: 1	ADVISORY PAMPHLET Cabin Operations Manual
AP-006	

1.21.2 An operator must ensure that all operations personnel are able to understand the language in which those parts of the Operations Manual which pertain to their duties and responsibilities are written.

1.22 Terminology and definitions (Appendix 1 to OPS 1.1005(g)4. and Appendix 1 to OPS 1.1045 Part A, para 0.1(d))

1.22.1 The Operations Manual should include a general knowledge of relevant aviation terminology, theory of flight, passenger distribution, meteorology and areas of operation, together with explanations and definitions of terms and words needed for the use of the Operations Manual.

1.23 Physiological effects of flying (Appendix 1 to OPS 1.1005(d)3.)

1.23.1 The Operations Manual should include information on the physiological effects of flying with particular emphasis on hypoxia, time of useful consciousness, decompression and time zone changes.

2 Standard Operating Procedures

2.1 Foreword

2.1.1 OPS 1.205 and ACJ OPS 1.205 requires that an operator ensures that all personnel assigned to, or directly involved in ground and flight operations are properly instructed in, have demonstrated their abilities in their particular duties and are aware of their responsibilities and the relationship of their duties to the operation as a whole. OPS 1.210(a) and AMC OPS 1.205(a)(b) requires that an operator to establishes procedures and instructions for each aeroplane type, containing ground staff and crew members' duties for all types of operation on the ground and in flight.

2.1.2 OPS 1.200 requires an operator to provide an Operations Manual in accordance with Subpart P for the use and guidance of operations personnel. Additionally, Appendix 1 to OPS 1.1010 and IEM to Appendix 1 to JAR-OPS 1.1005/1.1010/1.1015/1.1015/1.1020 requires that an operator ensures that all appropriate OPS 1 and JAR-OPS 1 Section 2 requirements are included in the training of cabin crew members.

2.1.3 The purpose of this section is to assist operators in identifying standard operating procedures likely to be required in order to conduct the safe operation of aeroplanes. The Cabin Safety element of the Operations Manual should specify all items detailed in this Chapter as appropriate to scale and scope of operation.

2.1.4 Specific individual cabin crew duties for each aeroplane type and variant should be expanded in Section 5, Aeroplane Type Specific, Paragraph 2 – Cabin Crew Duties.

2.2 Communication and co-ordination

2.2.1 Information regarding the effective communication and co-ordination between all crewmembers.

2.3 Pre-flight safety briefing of cabin crew

2.3.1 Establishment of Procedures (AMC OPS 1.210(a). Procedures for the pre-flight briefing of cabin crew and the provision of necessary safety information with regard to their specific duties.

2.4 Pre-departure safety equipment checks (OPS 1.290, 1.330, and Appendix 1 to OPS 1.1045, Part A, para 10.1)

2.4.1 List the survival equipment to be carried for the routes to be flown and the procedures for checking the serviceability of this equipment prior to take-off. Instructions regarding the location, accessibility and use of survival and emergency equipment and its associated check list(s) should be included.

2.5 Passenger embarkation and distribution (Appendix 1 to OPS 1.1045 Part A, para 8.3.15 and Appendix 1 to OPS 1.1005(e)4.)

2.5.1 Specify procedures covering:

- a. Cabin preparation for flight, in-flight requirements and preparation for landing including procedures for securing cabin and galleys;
- b. Procedures to ensure that passengers are seated where, in the event of an emergency evacuation being required, they may best assist and not hinder evacuation from the aeroplane;
- c. Procedures to be followed during passenger embarkation and disembarkation;
- d. Procedures in the event of fuelling with passengers on board or embarking and disembarking;
- e. Smoking on board; and
- f. The importance of correct seat allocation with reference to aircraft mass and balance. Particular emphasis shall also be given on the seating of disabled passengers, and the necessity of seating able-bodied passengers adjacent to unsupervised exits.

2.6 Passenger briefing (OPS 1.285, 1.305, Appendix 1 to OPS 1.305, IEM OPS 1.305 and Appendix 1 to OPS 1.1045 Part A, para 8.3.16)

2.6.1 The Operations Manual should specify the requirements for the briefing of passengers about safety related matters in normal and abnormal circumstances. Announcements are to reflect the aeroplane type operated, and the Operations Manual should specify the following passenger briefings:

- a. Embarkation;
- b. Pre-take-off safety;
- c. Post-take-off;
- d. Turbulence;

Rev.: 1	ADVISORY PAMPHLET Cabin Operations Manual
AP-006	

- e. Pre-landing;
- f. Post-landing;
- g. Refueling/de-fuelling; and
- h. Transit.

2.7 Assisting means for emergency evacuation (exit arming/disarming) (OPS 1.315)

2.7.1 Procedures to ensure that before taxiing, take-off and landing, and when safe and practicable to do so, an assisting means for emergency evacuation that deploys automatically, is armed.

2.8 Cabin lights (AMC OPS 1.210(a)2b)

2.8.1 Specify the cabin lights and the procedure for the dimming of cabin lights for night takeoffs and landings, if appropriate.

2.9 Cabin crew at stations (OPS 1.310(b) and 1.1045 Part A, paras 8.3.10 and 8.3.11)

2.9.1 Requirements for cabin crew to be at their crew stations at specified phases of the flight should be specified in the Operations Manual. The Operations Manual should also specify the requirements for crewmembers to use their seat harness during specific phases of flight.

2.10 Taxi, take-off, post-take-off, pre-landing, landing, and post-landing (Appendix to OPS 1.1005(g)7. and 8.)

2.10.1 Details of cabin crew duties should include the following:

- a. Procedures regarding cabin crew safety related duties during each of these phases of flight;
- b. Taxi procedures should indicate that cabin crew is required to be readily able to reach their hazardous emergency station in order to carry out their individual duties and in particular the need for evacuation;
- c. Instructions for cabin crew, whilst at their crew stations, to be particularly alert to potentially hazardous conditions, inside or outside the aircraft, during taxi, take-off and landing; and
- d. Guidance to cabin crew for action to be taken in the event of abnormal conditions.

2.11 Transit (Appendix 1 to OPS 1.1045 Part A, para 8.2.2)

2.11.1 Procedures for individual cabin crew during transit, control of passengers, instructions to passengers on any restrictions and the monitoring of passengers for compliance with any restrictions and instructions.

2.12 Flight crew drinks/meals (OPS 1.100)

2.12.1 Procedures and precautions to be taken when serving drinks and meals to the flight crew.

2.13 Admission and supervision of visits to the flight crew (OPS 1.100 and Appendix 1 to OPS 1.1045 Part A, para 8.3.12)

2.13.1 Procedures for the restriction, acceptance and supervision of visitors to the flight crew.

2.14 Refueling with passengers on board (OPS 1.305, IEM OPS 1.305, Appendix 1 to OPS 1.305 and Appendix 1 to OPS 1.1045 Part A, para 8.2.1(a) and (b) and Part A, para 8.3.15(d))

2.14.1 Procedures for re/defuelling with passengers on board pertinent to cabin crew should be specified in the Operations Manual.

2.15 Passenger disembarkation (Appendix 1 to OPS 1.1045 Part A, para 8.3.15)

2.15.1 Procedures for individual cabin crew during disembarkation to include control of passengers, instructions to passengers on any restrictions and the monitoring of passengers for compliance with any restrictions and instructions.

2.16 Securing of passenger cabin and galley(s) (OPS 1.320(b)(1), 1.325, Appendix 1 to OPS 1.1045 Part A, para 8.3.15 and Appendix 1 to OPS 1.1005(e)3. and (e)5.)

2.16.1 Details of cabin crew duties should include the following:

a. Passenger Safety Belts (OPS 1.320(b)(1)). Procedures for the correct methods and use of each type of passenger restraint;

b. Position of Tray Tables, Seatbacks, Armrests, In-flight Entertainment Equipment, etc (OPS 1.285(b)(1)(ii) and (d)(1)(iii)). Procedures for the correct stowage and position of passenger tray tables, seatbacks, armrests, foot-rests, TV monitors, in-flight entertainment equipment and any other items of equipment that are required to be stowed and secured for take-off and landing;

c. Overhead Bins (Appendix 1 to OPS 1.270 and AMC OPS 1.270). Procedures for monitoring the amount of baggage being stowed in overhead bins and that such stowage is securely closed and secured for taxi, takeoff and landing;

d. Passenger and Crew Baggage (Appendix to OPS 1.270, 1.325, AMC OPS 1.270 and Appendix to OPS 1.1045 Part A para 8.2.2(d) and Part A para 8.3.15). Procedures for ensuring that all cabin baggage is correctly stowed;

e. Exit and Escape Paths Unobstructed (OPS 1.325(a), 1.270, Appendix 1 to OPS 1.270 and AMC OPS 1.270(e)). Procedures for ensuring that exits, aisles and cross-aisles are unobstructed during taxi, take-off and landing;

f. Galleys and Galley Equipment (OPS 1.325(b), 1.270, Appendix 1 to OPS 1.270, AMC OPS 1.270 and Appendix 1 to OPS 1.1045 Part A para 8.3.15). Procedures for ensuring the

Rev.: 1	ADVISORY PAMPHLET Cabin Operations Manual
AP-006	

securing of all galley equipment, including the correct operation of restraint systems for specific items. Individual cabin crew duties should also be detailed in this respect;

g. Catering Supplies (OPS 1.270, Appendix 1 to OPS 1.270, AMC OPS 1.270 and Appendix 1 to OPS 1.1045 Part A, para 8.2.2(d)). Instructions for the correct stowage of all catering items and supplies should be specified in the Operations Manual;

h. Electronic Equipment (OPS 1.110 and 1.285(b)(1)(vi)). Procedures for the stowage of all electronic equipment, and this should specify that such appliances should be switched off before being stowed;

i. Toilets (Appendix 1 to OPS 1.1045 Part A para 8.3.15(a), Part A, para 8.3.11 and OPS 1.320). Procedures to ensure that toilets are unoccupied and appropriately secured for take-off and landing; and

j. Definition and Timing of Cabin Secure Check to Flight Crew (Appendix to OPS 1.1045 Part A, para 8.3.15(a) and Part B, para 2.1 and OPS 1.085(b)(c)). Procedures for completion of the cabin secure check and the procedures for the check to be passed to the flight crew.

2.17 Passenger seat allocation/restrictions (OPS 1.280, IEM OPS 1.280, ACJ OPS 1.280, Appendix 1 to OPS 1.1005(e)4., OPS 1.260, IEM OPS 1.260 and Appendix to OPS 1.1045 Part A, paras 8.2.2 and 8.3.15)

2.17.1 Specific information on the procedures for the correct seating of passengers. The categories of passengers who are not to be seated in exit seat rows should be listed.

2.18 Unauthorized carriage (OPS 1.105)

2.18.1 Procedures for ensuring that no passenger or cargo is secreted on board the aeroplane.

2.19 Inadmissible passengers and refusal of embarkation (OPS 1.265 and Appendix 1 to OPS 1.1045 Part A, paras 8.2.2 and 8.2.3)

2.19.1 Procedures should be included in the Operations Manual to ensure that inadmissible passengers including those under the influence of alcohol and drugs are not carried in an aeroplane. The procedures for the refusal to carry such passengers should be specified.

2.20 Influence of alcohol and drugs (OPS 1.115, Appendix 1 to OPS 1005(e)1. and ACJ OPS 1.085(e)(3))

2.20.1 Details regarding the management by cabin crew of passengers who become drunk or abusive in flight should be specified.

2.21 Endangering safety (OPS 1.120)

2.21.1 Procedures for dealing with passengers who may act in such a way as to potentially endanger an aeroplane or its occupants.

2.22 Carriage of special categories of passengers (OPS 1.260, 1.265, IEM OPS 1.260 and Appendix 1 to OPS 1.1045 Part A, para 8.2.2(a)(b))

2.22.1 Procedures for the carriage of special categories of passengers such as:

- a. Children and infants;
- b. Sick passengers;
- c. Persons with reduced mobility (PRMs);
- d. Passengers on stretchers;
- e. Unaccompanied minors;
- f. Prisoners in custody;
- g. Deportees; and
- h. Other special categories.

2.23 Hand baggage (OPS 1.270, Appendix 1 to OPS 1.270, AMC OPS 1.270, Appendix 1 to OPS 1.1005(e)3. and Appendix 1 to OPS 1.1045 Part A para 8.2.2(c))

2.23.1 Information with regard to stowages, and the weight and size of permitted hand baggage.

2.24 Smoking on board (OPS 1.285 and 1.335)

2.24.1 Specify where and when smoking on board the aircraft is permitted.

2.25 Injury and death on board (Appendix 1 to OPS 1.1045 Part A, para 11(a)(b)(c)(f))

2.25.1 Procedures to be followed in the event of injury or death occurring on board an aeroplane.

2.26 Dangerous goods (Appendix 1 to OPS 1.1005(e)7., OPS 1.080, AMC OPS 1.270(a), Appendix 1 to OPS 1.1045 Part A, para 9 and all of Subpart R)

2.26.1 Procedures for the carriage of dangerous goods.

2.27 Live animals in the cabin (Appendix 1 to OPS 1.1005(e)6. and AMC OPS 1.270(b))

2.27.1 Procedures for the carriage of live animals in the cabin should be specified in the Operations Manual.

2.28 Portable electronic devices (OPS 1.110 and 1.285(b)(1)(vi))

2.28.1 Procedures for ensuring compliance with any restrictions in respect of passenger use of electronic equipment together with the instructions to be given to passengers. Such procedures should relate to the different phases of flight.

Rev.: 1	ADVISORY PAMPHLET Cabin Operations Manual
AP-006	

2.29 Carriage of weapons (OPS 1.065 and 1.070, IEM OPS 1.065 and 1.070 and Appendix 1 to OPS 1.1045 Part A, para 9)

2.29.1 Procedures regarding the restrictions for the carriage of weapons and ammunition on board an aeroplane.

2.30 General surveillance (AMC OPS 1.210(a) 2c. and IEM OPS 1.210(a)(b))

2.30.1 Procedures for cabin crew surveillance which will include as a minimum:

- a. Toilets;
- b. Cabin and galley (including underfloor galleys);
- c. Flight deck; and
- d. Cargo areas.

2.31 Fire prevention (IEM OPS 1.210(b), AMC OPS 1.210(a) 2c.)

2.31.1 Procedures to be carried out by cabin crew in order to prevent the occurrence of an in-flight fire. In addition to the general surveillance listed above, specific fire prevention procedures should also include as a minimum and where appropriate, the following:

- a. Smoking restrictions which are followed by both crew and passengers;
- b. Aeroplane electrical equipment (such as ovens, circuit breakers, etc) are only used for their intended purposes;
- c. Fire detection systems (such as toilet smoke detectors) have not been disabled or tampered with.

2.32 Passenger and crew restraint (OPS 1.730, 1.285 and Appendix 1 to OPS 1.1045 Part A, para 8.3.11, ACJ OPS 1.730(a)(3))

2.32.1 Information regarding the procedures for the correct use of occupant seats and restraints systems, to include as a minimum and where appropriate:

- a. Passenger seats (OPS 1.320(b));
- b. Definition of infants (OPS 1.607(e)(3));
- c. Infant restraint devices (OPS 1.730(a)(3) and 1.320(b)(2));
- d. Extension seatbelts;
- e. Cabin crew safety harness (OPS 1.320(a) and 1.730(a)(5)); and
- f. Flight crew safety harness (including observer's seat) (OPS 1.730(a)(4), 1.320(a)(1), Appendix 1 to OPS 1.1010(g), Appendix 1 to OPS 1.1015(b)1., Appendix 1 to OPS 1.1020(1) and Appendix 1 to OPS 1.1045 Part A, paras 8.3.11 and 8.3.14).

2.33 Turbulence (Appendix 1 to OPS 1.1045, OPS 1.1000(b))

2.33.1 Procedures which are to be followed in the event of air turbulence, which as a minimum should include:

- a. Types of air turbulence (Appendix 1 to OPS 1.1045 Part A, paras 8.3.8 and 8.3.9);
- b. Flight crew notification to cabin crew; and
- c. Actions to be taken by cabin crew in respect of communication, crew and passenger security and cabin service activities (Appendix 1 to OPS 1.1045 Part A, paras 8.3.10 and 8.3.11, Appendix 1 to OPS 1.1005(e)5. and Appendix 1 to OPS 1.1010(e)(2)(ii), AMC OPS 1.210(a) 2(d) and IEM OPS 1.210(b)).

3 Safety equipment – General (OPS 1, Subpart K, Appendix 1 to OPS 1.1010, Appendix 1 to OPS 1.1015, Appendix 1 to OPS 1.1020 and Appendix 1 to OPS 1.1045 Part B, para 10)

3.1 Foreword

3.1.1 The Operations Manual should contain full descriptions and details of the location, use and operation of each item of safety equipment carried on board an aeroplane which cabin crew may be required to operate. Illustrations or diagrams of the equipment together with the cabin crew pre-flight serviceability checks should be included where appropriate. Emergency equipment may include:

- a. Fire extinguishers (OPS 1.790 and AMC OPS 1.790);
- b. Fire axe/crowbars (OPS 1.795);
- c. Protective breathing equipment (PBE) (OPS 1.780);
- d. Smoke goggles;
- e. Fire gloves;
- f. Torches (OPS 1.640);
- g. Oxygen (fixed and portable) (OPS 1.760, 1.775 and 1.770, IEM OPS 1.760, Appendix 1 to OPS 1.775, AMC OPS 1.770);
- h. First aid kits (OPS 1.745 and 1.755, AMC OPS 1.745 and, AMC OPS 1.755);
- i. Survival equipment (OPS 1.835, IEM OPS 1.835, AMC OPS 1.835(c));
- j. Pyrotechnics (OPS 1.835);
- k. Locator beacons (OPS 1.820 and 1.830, ACJ OPS 1.820, AMC OPS 1.830(b)(2));

Rev.: 1	ADVISORY PAMPHLET Cabin Operations Manual
AP-006	

l. Flotation equipment (infant and adult lifejackets, life cots, and life rafts) (OPS 1.825 and 1.830, IEM OPS 1.825);

m. Megaphones (OPS 1.810, AMC OPS 1.810); and

n. Non-mandatory or special equipment.

4 Emergency Procedures (OPS 1.210, AMC OPS 1.210(a), IEM OPS 1.210(b), Appendix 1 to OPS 1.1005, Appendix 1 to OPS 1.1010, Appendix 1 to OPS 1.1015, Appendix 1 to OPS 1.1020 and Appendix 1 to OPS 1.1045 Part B, para 11)

4.1 Foreword

4.1.1 The Operations Manual should contain information on the following emergency procedures:

4.2 Emergency evacuation procedures (Appendix 1 to OPS 1.1045 Part B, para 11)

4.2.1 The duties of all members of the crew for the rapid evacuation of an aeroplane and the handling of the passengers in the event of a forced landing, ditching or other emergency.

4.3 Definition of types of emergencies

4.3.1 Definitions and descriptions of specific types of emergency situations.

4.4 Crew co-ordination (OPS 1.1045 and 1.1000(b), AMC OPS 1.965(d), Appendix 1 to OPS 1.1045 Part B, para 3 and para 11)

4.4.1 Procedures for effective co-ordination and communication between all cabin crew and flight crewmembers for all emergency scenarios.

4.5 Notification of emergencies

4.5.1 Procedures to be followed in order to notify all crewmembers of any type of emergency situation.

4.6 Initiation of evacuation (Appendix 1 to OPS 1.1010 (e)1.)

4.6.1 Procedures to be followed for the initiation of an evacuation.

4.7 Assistance of able-bodied persons (ABPS) (OPS 1.280, IEM OPS 1.280, ACJ OPS 1.280 and Appendix 1 to OPS 1.1045 Part A, para 8.3.15(b))

4.7.1 Details of the criteria for the selection of ABPs, content and method of briefing, and specific instructions for re-seating and any special instructions to ensure maximum effectiveness of ABPs.

4.8 Brace positions (OPS 1.285(f) and Appendix 1 to OPS 1.1010(i))

4.8.1 Details of the appropriate brace position for both crew and passengers and the timing of the brace command.

4.9 Crowd control (Appendix 1 to OPS 1.1005(e)2. and IEM to Appendix 1 to OPS 1.1005)

4.9.1 Procedures for passenger management during and after evacuation.

4.10 Instructions for evacuation

4.10.1 Details of the instructions to be given to passengers.

4.11 Disabled passengers (Appendix 1 to OPS 1.1005(e)4.)

4.11.1 Procedures for the evacuation of disabled passengers should be specified.

4.12 Unusable exits (Appendix 1 to OPS 1.1010(e)1.)

4.12.1 Definition of an unusable exit, whether unserviceable or unsuitable in the circumstances.

4.13 Public address announcements (Appendix 1 to OPS 1.1010 (h)9. and (i))

4.13.1 Public address announcements and instructions to be given to passengers in the event of all types of emergency evacuation, both planned and unplanned, as appropriate.

4.14 Land evacuation and ditching (Appendix 1 to OPS 1.1045 Part B, paras 3.1(n) and 11.2)

4.14.1 Procedures in the event of both planned and unplanned emergencies and individual crewmember responsibilities.

4.15 Rejected take-off (Appendix 1 to OPS 1.1045 Part B, paras 3.1 and 11.2)

4.15.1 Procedures in the event of a rejected take-off.

4.16 Ground based emergency services (Appendix 1 to OPS 1.1005(a)5.)

4.16.1 Procedures of ground based emergency services at aerodromes.

4.17 Pilot incapacitation (Appendix 1 OPS 1.1010(g), Appendix 1 to OPS 1.1015(b)1. and Appendix 1 to OPS 1.1045 Part A, para 8.3.14 and Part B, para 3.1(a), AMC to Appendix 1 to OPS 1.965, IEM OPS 1.1000 (2)(c), ACJ OPS 1.1030 (3)(d))

4.17.1 Procedures to deal with an incapacitated pilot in-flight, including:

- a. Use of the pilot's seat mechanism;
- b. Fastening and unfastening of the pilot's seat harness;
- c. Use of the pilot's oxygen equipment and administering appropriate first aid; and
- d. Use of the pilot's checklist.

Rev.: 1	ADVISORY PAMPHLET Cabin Operations Manual
AP-006	

4.18 Decompression (Appendix 1 to OPS 1.1010 (e)(2)(iii), ACJ OPS 1.1030 (3)(c))

4.18.1 Details of:

- a.** Rapid and slow decompression - full description including first indications;
- b.** The immediate actions required by cabin crew for oxygen and restraint;
- c.** Use of the Public Address (PA) - communication with crew and passengers;
- d.** The monitoring of passengers;
- e.** Actions to be taken when the aeroplane is level;
- f.** Check of passengers and cabin secure; and
- g.** Administering oxygen as appropriate.

4.19 Fire (Appendix 1 to OPS 1.1005(a), Appendix 1 to OPS 1.1010(b) and Appendix 1 to OPS 1.1015(c)(3), IEM to Appendix 1 to OPS 1.1010/1.1015)

4.19.1 Procedures and equipment required to enable cabin crew to deal successfully with any type of in-flight fire:

- a.** Theory of Fire and Smoke – In order for cabin crew to understand the principles of fire fighting, the Operations Manual should contain the basic theory of fire, which will include the principles of combustion and classification of types of fire and smoke.
- b.** Fire Source – The Operations Manual should stress the importance of locating and identifying the source of any aeroplane fire. Possible fire sources and high fire risk areas should be identified.
- c.** General Procedures – Details of the basic procedures for dealing with any in-flight fire. These will include as a minimum:
 - (i)** The necessity to immediately locate and identify the fire source;
 - (ii)** Appropriate techniques for attacking fires;
 - (iii)** Communication with the flight crew;
 - (iv)** Communication and co-ordination with cabin crew; and
 - (v)** The provision of back-up equipment and crewmembers.
- d.** Control of Passengers – Procedures for the control, management and protection of passengers in the event of an in-flight fire.
- e.** Specific Fire Scenarios – Procedures for dealing with specific in-flight fire characteristics of the aircraft interior. These may include:

- (i)** Galley;

- (ii) Underfloor;
- (iii) Toilet;
- (iv) Oven;
- (v) Waste containers;
- (vi) Overhead bins;
- (vii) Freight;
- (viii) Baggage;
- (ix) Seat;
- (x) Electrical;
- (xi) Flight deck;
- (xii) Lift;
- (xiii) In-flight entertainment systems;
- (xiv) Closet; and
- (xv) Catering equipment/supplies.

f. Extinguishing Agents - Details of the extinguishing agents used on board the aircraft. The following should be included for each agent:

- (i) Description of the design of extinguishers for immediate identification purposes;
- (ii) The characteristics of the agent;
- (iii) The limitations and restrictions;
- (iv) The methods of application, and
- (v) Suitable alternative agents and procedures.

g. Smoke and Fumes - Procedures to be adopted by cabin crew in the event of smoke or fumes in the aeroplane . These may include:

- (i) Protection of crew and passengers;
- (ii) Smoke removal procedures; and
- (iii) Installation of smoke barrier or use of any other special equipment.

AP-006	

5 Aeroplane type specific – systems and equipment (OPS 1.1010, 1.1045)

5.1 Foreword

5.1.1 The Operations Manual should contain details of all the following topics for each aeroplane type, and where differences occur, for each aeroplane variant.

5.2 Aeroplane description

5.2.1 A general description of the aeroplane should be provided.

5.3 Cabin configuration

5.3.1 A full description of the configuration of each variant of cabin. Details of the use and operation of individual fixed items of equipment should be provided. These items may include:

- a. Safety equipment;
- b. Crew and passenger seats;
- c. Stowage areas;
- d. Toilets;
- e. Galley appliances including refrigerators, ovens, water boilers, control panels;
- f. Water supply systems, sinks, drains, water shut off;
- g. Curtains and partitions (OPS 1.735, Subpart K);
- h. Lifts; and
- i. Rest areas.

5.4 Cabin crew duties specific areas of responsibilities (IEM OPS 1.990)

5.4.1 Minimum and normal cabin crew complement (IEM OPS 1.990)

5.4.2 Cabin crew seating positions - minimum, normal and mandatory (IEM OPS 1.990)

5.4.3 Standard operating procedures for cabin crew duties are included in Chapter 2. This should be detailed for each aeroplane type.

5.5 Location of equipment diagram (OPS 1.055)

5.5.1 A diagram may be used for each variant of aeroplane showing the location of all items of safety equipment, both fixed and portable. This should be provided in the Operations Manual.

5.5.2 Safety equipment specific to the aeroplane type.

5.6 Electrical systems (Appendix 1 to OPS 1.1045 Part B, para 12)

5.6.1 Details of the location, use and operation of electrical systems should be specified. These may include:

- a. Normal lighting systems;
- b. Emergency lighting systems to include floor proximity and external;
- c. Galley systems power shut-off, appliance overheat/malfunction;
- d. Circuit breakers;
- e. Smoke detector systems;
- f. Evacuation alarm systems; and
- g. Any other alarm systems.

5.7 Oxygen systems (OPS 1.770, 1.775 and 1.1045, Appendix 1 to OPS 1.770, AMC OPS 1.770, Appendix 1 to OPS 1.775, Appendix 1 to OPS 1.1045)

5.7.1 The Operations Manual should contain details of all types of oxygen systems on board the aeroplane. This should include:

- a. Description of the cabin system and details of its location, use and operation;
- b. Description of the flight deck system and details of its location, use and operation; and
- c. Description of any supplementary oxygen systems and details of its location, use and operation.

5.7.2 Cabin crew duties in decompression, specific to the aeroplane type.

5.8 Communication systems

5.8.1 The Operations Manual should contain details of the aeroplane systems for communication. These should include the location, use and operation of:

- a. Interphones;
- b. Passenger address (OPS 1.695);
- c. Crew call systems (OPS 1.685 and 1.690);
- d. Passenger information signs;
- e. Passenger call; and
- f. Audio/video systems - In-flight Entertainment (IFE).

Rev.: 1	ADVISORY PAMPHLET Cabin Operations Manual
AP-006	

5.9 Exits

5.9.1 The Operations Manual should contain details of all the exits on the aeroplane. This should include for each type of exit in the cabin or flight deck (IEM Appendix 1 to OPS 1.1010/1.1015/1.1020):

- a. Full description;
- b. Location;
- c. Operation from inside the aeroplane;
- d. Operation from outside the aeroplane;
- e. Operation of arming and disarming systems;
- f. Use of door straps;
- g. Use of slides;
- h. Use of slide rafts; and
- i. Use of ropes and any other assist devices.

5.10 Emergency situations/procedures (Appendix 1 to OPS 1.1045 Part B para 3)

5.10.1 Procedures specific to aeroplane type including:

- a. Land evacuation - individual cabin crew duties;
- b. Ditching - individual cabin crew duties;
- c. Announcements/instructions in emergency evacuation;
- d. Pilot incapacitation - seat mechanism and fastening/unfastening seat harness;
- e. Fire scenarios specific to aeroplane type;
- f. Smoke removal procedures;
- g. Smoke barrier;
- h. Brace positions applicable to seating configuration.

6 First aid (Appendix 1 to OPS 1.1005(d), Appendix 1 to OPS 1.1010(h)12., Appendix 1 to OPS 1.1015 (b)5., Appendix 3 to OPS 1.1005/1.1010/1.1015, AMC OPS 1.945 (3.1)(a)(b))

6.1 Foreword

6.1.1 The Operations Manual should specify the first aid objectives and contain specific procedures and information on the following aspects:

- a.** Physiology of flight including oxygen requirements and hypoxia.
- b.** Medical emergencies in aviation including:
 - (i)** Choking;
 - (ii)** Stress reactions and allergic reactions;
 - (iii)** Hyperventilation;
 - (iv)** Gastro-intestinal disturbance;
 - (v)** Air-sickness
 - (vi)** Epilepsy;
 - (vii)** Heart attacks;
 - (viii)** Stroke;
 - (ix)** Shock;
 - (x)** Diabetes;
 - (xi)** Emergency childbirth; and
 - (xii)** Asthma.
- c.** Basic first aid and survival including care of:
 - (i)** The unconscious;
 - (ii)** Burns;
 - (iii)** Wounds; and
 - (iv)** Fractures and soft tissue injuries.
- d.** Artificial respiration and cardiopulmonary resuscitation.
- e.** The use of appropriate aeroplane equipment including first-aid kits and first-aid oxygen.
- f.** Other medical emergencies.

Rev.: 1	ADVISORY PAMPHLET Cabin Operations Manual
AP-006	

7 Survival, search and rescue (OPS 1.050 and 1.055, Appendix to -OPS 1.1005)

7.1 Foreword

7.1.1 The Operations Manual should contain information on survival procedures appropriate to the regions of operation. Such information should include the following:

- a. Search and rescue procedures OPS 1.1050;
- b. Basic principles of survival;
- c. Protection, location, water, and food;
- d. Water survival;
- e. Polar survival;
- f. Desert survival;
- g. Jungle survival; and
- h. Survival first aid and hygiene.

8 Dangerous goods (Subpart R and Appendix 1 to OPS 1.1045 Part A para 9)

8.1 The Operations Manual should specify the procedures and requirements, pertinent to cabin crew, as required by OPS 1 Subpart R.

9 Security including Hijack and Bombs (Subpart S and Appendix 1 to OPS 1.1045 Part A para 10)

9.1 Foreword

9.1.1 Operators should ensure that the Operations Manual reflects all the security requirements and procedures of the National organization responsible for Aviation Security.

9.1.2 The manual should include specific security information relevant to cabin crew, regarding the following:

- a. Security requirements;
- b. Reporting acts of unlawful interference;
- c. Aeroplane search procedure check list; and
- d. Flight crew compartment security.
